Sees Long Delay in Ruling On Freight Rates Increase

By H. R. Hardy
OTTAWA—It will probably be well into 1947 before the board of transport commissioners gets around to final hearing of the Canadian Railways' application for a 30 per cent freight rate increase.

Meanwhile it will be dealing with representations from all parts of the country which already have begun to pour in to the board's offices.

Already the premier of several provinces have filed letters with the board protesting against any rise in the rates. These will be followed by formal briefs from some of the provinces affected.

Because the question of freight rates is one that is of vital interest to all sections of the dominion, and to a wide variety of interests, the representations which the board

will have to deal with will be many in number and voluminous in content.

It is understood that following receipt and consideration of such reports, which will come from industry, boards of trade, municipalities, shipping companies, etcetera, the board will hold a series of sittings from coast to coast.

Following these meetings the board will convene again in Ottawa and the final ruling will be made. It is pointed out also, that the price board, directly concerned with price ceilings, will be an interested party to the proceedings and will also act in an advisory capacity.

Any change in freight rates will mean subsequent changes in the prices of commodities shipped on Canadian railroads.

The impact of a 30 per cent rise in freight rates on the economy of the dominion would be great.

With all these factors to consider it is obvious that the hearings will be long drawn out. It will not be a matter for map decision.

Man versus germs

When Man first woke to the nature of

Germs, and sought for means to destroy

them, he got a big surprise.

Excited, as well he might be, when he first

traced down his invisible enemies, Man was

hardly prepared for the surprise that awaited him.

He found that germs were easy to destroy.

Carbolic acid, strong alcohol, any number of

compounds, he found, would swiftly and surely

wipe out whole armies of germs. But—and it was

a tremendous 'but'—he also found that germs

were almost the same substance as his own

living tissues.

AND SO began the long, patient, research, the

long story of trial and error. One after another,

antiseptic substances had to be discarded. Some

could not be applied in sufficient concentration

without harming the patient as well as the germs.

Others interfered with the body's own processes

of healing and repair. Others combined with

body cells and fluids before attacking the germs.

Others again, were changed by the body into

inert chemicals.

BUT TODAY we have—without countless cas-

histories to prove it—a highly efficient

antiseptic that is gentle on human tissue;

one which, so far from hindering, helps the

natural processes of repair. Its name is

'Dettol'. In almost every important hospital

and maternity home in Great Britain 'Dettol

is used to combat the menace of septic

infection. There is hardly a British doctor or

surgeon but relies, because he has tested and

proved it, on the germicidal efficacy of 'Dettol'.

NOW in all the leading Maternity Hospitals

of Canada, this pleasant, non-poisonous, non-

staining antiseptic is preferred. It is at your

B. C. Expecting Huge Contracts

VANCOUVER, (CP)—The Vancouver Board of Trade said today that B.C. shippers may obtain new contracts for the export of lumber worth \$700,000 as a result of negotiations now underway with French and Chinese buyers.

The French deal, said the newspaper, is the result of a contract of four lightwood tenders, while the Chinese are seeking three 270-foot cargo boats for use in rivers and coastal trade. The Chinese ships would cost an estimated \$450,000.

The B.C. board added that construction work will probably be carried out under government arrangements in western Canada and the countries bordering the Pacific.

T. U. C. Votes 4-1 Break with Spain

BRIXTON, Essex, England, (CP)—The British Trade Union Congress voted 438,000 to 139,000 Friday in favor of a resolution urging that Britain sever diplomatic relations with Franco Spain.

The action by the 800 delegates representing 20 trade unions was taken despite objections by prime Minister Attlee. It also marked the first time congress overrode the general conference which argued that the break should be made by the United Nations rather than by unilateral British action.

Mr. Attlee said such action constituted an interference with the United Nations which in the past has served to strengthen France's position in Europe.

A second resolution criticizing the British government's foreign policy in Russia, Germany and Greece and asserting that relations with those countries had deteriorated in the last 12 months "due to the policy of Anglo-American domination" was defeated 3,507,000 to 2,400,000.

Shortly before the congress adjourned, E. W. Busey, general secretary of the Electrical Trades Union, described an "unfortunate, ill-thought and unthoughtful" attack on the union by Mr. Attlee.

In an address before the T.U.C. Thursday, Mr. Attlee said the foreign policy resolution was prepared by the Electrical Trades union and that it was couched in terms usually favored by Communists and their fellow-travelers.

ANTISEPTIC
DETOL

NON-POISONOUS
GERMICIDAL

CHARLES COBURN, variety artist who penned the song "The Man Who Broke the Bank at Monte Carlo" and sang to British troops in six wars, has died in London.

Here is the new executive of the second Edmonton district teachers' convention, held Thursday and Friday in the Masonic temple. Left to right: president, Otto Manning, Westlake; secretary-treasurer, Harry Lommes, Westlake; vice-president, J. J. Palmer, Thorley.

Benning told the jury he had quite truly been unable to recall in testimony before the royal commission on espionage why he had the numbers of a man he considered was not a usual acquaintance. That failure emerged Thursday in excerpts of his commission evidence as one of the most damaging points against him because he denied he had seen the man.

Benning said he was his sister who had reminded him since his first meeting with her in 1934. He had seen her in the home of the alleged Russian recruiting agent. He had never given him any information of a confidential nature.

Benning's denial of giving any information extended to other espionage cases and to other British agents of various degrees of acquiescence.

Wild-Eyed Drivers Jar Paris Traffic

PARIS, (CP) — Paris, among other things, is a city where the traffic is jarred.

In no other big city in Europe is there such vehicular congestion, such fantastically wild driving, or so many speed demons demonstrating their skill, or lack of it.

For a long time after the liberation, practically all Paris rode bicycles. But cars have gradually come back and now with increased gasoline supplies and the return of people from summer holidays, Parisians are driving more cars probably than any time since 1940. And they drive them with unprecedented abandon.

There are sleek new American and Canadian models, new front-wheel drive cars with automatic pick-up, and thousands of old jalopies which give traffic attacks an unending and unpredictable change of pace.

For the poor pedestrian—the hunted man of Paris.

Canadian army men here who drove the Canadian peace conference delegation in August, when Paris was comparatively quiet in its summer lull, said they had never seen anything like the current congestion and lack of adherence to the ordinary rules of the road.

M. Ernie, treasurer of Ottawa, who drove Prime Minister King and who has returned to London to drive for Norman Robertson, the new Canadian high commissioner there, said:

"Driving in Canada, in London or in Canadian army convoys during the war, didn't have a panic, on what you had to look out for here this fall. No car driver seemed to pay any attention to anybody else and going up places like the Champs Elysees it was everyone for himself, with no holds barred."

Manitoba Finishes Case on Taxation

WINNIPEG, (CP) — Works Minister Willie of Manitoba said Friday on his return from Ottawa that the province had completed submission to the federal government on its case on a dominion-provincial agreement on taxes of taxation.

The federal government probably would discuss submissions of other provinces before starting final agreement, he said.

"Earlier it was reported erroneously that the agreement had been completed."

Units Must Decide Coalition Issue

REGINA, (CP) — The Progressive Conservative party believes constituency associations themselves must decide whether or not they favor a coalition with the Liberals in an effort to defeat the C.P.P. Rupert Ransay, provincial Progressive Conservative leader, said Friday.

"I am not prepared to sacrifice basic principles of my party philosophy for any arrangements. At the same time I realize that the big issue facing all those whose economic stake is vested in Saskatchewan is socialism versus freedom and private or co-operative ownership," Mr. Ransay said.

Walter Tucker, Saskatchewan Liberal leader, said at Saskatoon recently that he would not give his support to a policy advocating a coalition of Liberals and Progressive Conservatives to defeat the C.P.P. in the next provincial election.

Only 1,000 books have been salvaged out of Manitoba's library of 140,000 volumes before the war.

Seafire Fighter Planes from Canada's New Aircraft Carrier

Roosevelt at Death Planning Visit U.K.

NEW YORK, (AP) — Vice Admiral Ross McIntire, Franklin D. Roosevelt's physician throughout his presidency, said in his new book "White House Physician," that the president was planning a trip to London at the time of his death.

The president's son, Elliott, in his recent book on his father's international conference, said Mr. Roosevelt had discussed such a trip with him some time before considering it the best way to appeal to the British people and parliament for an end in the post-war period to certain phases of British imperial policy which he opposed.

Admiral McIntire says the 1945 trip was projected at the request of Winston Churchill.

TWO KILLED IN MANITOBA
WINNIPEG, (CP) — Two fatalities were reported in rural Manitoba in 24 hours. Maureen Schindler, 21, of Glenora, died of a heart attack after she had fallen into a well, and a 16-year-old boy, William Henry Boyer, 16, of Grubert's Corner, was crushed to death by a tractor which upset in a ditch.

Discover Ruins Ancient Village

PARIS, (Reuters) — Ruins of a village believed more than 6,000 years old have been discovered on a plateau near Toulon. Vestiges of houses, arrowheads, bronze and silver coins and stones used in catapults were among items uncovered by archaeologists. The village is believed to have been the capital of a powerful tribe which inhabited the region about 6000 B.C.

Give Photo Warning To Russian Zones

BERLIN, (AP) — Personnel of the United States Army's Berlin district forces have been warned to "refrain from photographing any objects of military importance in the Russian sector of Berlin or the Russian zone of Germany."

This warning, published in the headquarters daily bulletin, follows the fatal shooting of Harry Flett, Jr., a Nebraska, in the Soviet sector. He had been stopped for questioning by a Russian patrol while he and two companions were using their cameras.

TRANSPORT STRIKE ENDS
COLUMBUS, O., (AP) — A 24-day old street car and bus strike in Columbus ended Friday when the Transport Workers' union (T.W.U.) and the Columbus and Southern Ohio Electric company agreed to arbitrate their differences over wages and other matters.

Edmonton One of Few Cities Not Facing Parking Problem

How to regulate automobile parking without shutting would-be customers from downtown shopping sections or adding to congestion of streets already thronged with more traffic than their designers ever envisioned has high priority on the problem lists of municipal councils across Canada.

Every city dweller has his own pet theory of the way to end the tangle but a Canadian Press survey shows two main methods favored by Canadian communities: underground parking (still in the blueprint stage) for the big cities and parking meters for the smaller ones.

The basic difficulty stems from the nature of the streets of most cities.

Two Live, One Dies In 300-Foot Plunge

PENITENTON, B. C. (CP) — A. V. Berry and his six-year-old daughter survived a 300-foot plunge in a converted army truck but Mr. Berry was killed on the Shingle Creek road, 10 miles west of here.

Police reported the truck struck a soft shoulder on the road, went out of control, and plunged into a gorge.

Mr. Berry suffered severe chest injuries but his daughter escaped with only minor injuries. Both are in hospital here.

Hunter Lost Week, Lived on Raw Meat

SYDNEY, N.S. (CP) — Tattered and bruised but wearing a wide grin, Charles Shaheen, 46, missing on a hunting trip for a week, stumbled into a farm house at nearby Louis Bay West Friday. He lost so much weight his ribs fell off his fingers.

Shaheen had eaten from time to time, his fare consisting of raw rabbits and partridge, a menu forced on him after his matches became wet when he fell into a bog.

He had only one cartridge left in his rifle when he reached the farm house. Search parties have been scouring the woods since Shaheen, a Sydney steel worker, became lost.

**IT'S EXPERIMENTAL
WITH ASPIRIN**

**REMEMBER! Of all pain relievers,
none can match ASPIRIN'S record of use by millions
of normal people without ill effect**

THESE MILLIONS know from experience, the thing to do when you get an ordinary headache is to take ASPIRIN for fast, effective relief.

But when ASPIRIN does not give you relief... the pain keeps up... it will pay you to remember that not all headaches are the common everyday type. Therefore, you should see your doctor, for your pain may actually be a warning from nature that something else is wrong with you—something much more serious.

In this event, whatever you do—don't experiment! To do so may be harmful. Instead, see your doctor. He alone should decide if you need a stronger remedy and if so, what kind.

Always remember that your doctor—and only your doctor is qualified to recommend a stronger remedy.

Also don't ever forget that for ordinary headaches—the thing to use for really fast relief is ASPIRIN.

When you buy, always be sure you get ASPIRIN... not a substitute.

FAST PAIN RELIEF

**It Starts to Go to Work
Almost INSTANTLY!**

ASPIRIN is a single active ingredient that is so gentle to the system many doctors recommend it even for small children. Yet this ingredient is so amazingly effective—that ASPIRIN is ready to go to work almost immediately.

ASPIRIN is reasonably priced, too. In the family size bottle it costs less than 16¢ per tablet.

LOWEST PRICES EVER!
Bottle of 100 tablets... 18¢
Bottle of 250 tablets... 29¢
Bottle of 500 tablets... 49¢

ASPIRIN
Genuine

**Protected on the Features
That You Cannot See!**

When you spend a large sum of money on a house, you want to know that the foundation is sound... on a watch, that the inner works are good... on a car, that the motor is good.

Some can be examined—others are purchased on the reputation of the manufacturer. Just as you look for the hall mark on a piece of silver you are invited to look for the **PARKHILL** label when you purchase upholstered furniture.

PARKHILL CHESTERFIELD SUITES

Available at Furniture and Department Stores throughout Western Canada.

A peep at the **PARKHILL** label serves as your assurance of quality.

Recreation and the Arts

The Edmonton Recreation Commission, in its comparative short life, has performed an excellent service for this community. Besides its actual accomplishments in providing recreational facilities, it has also performed a valuable purpose in enlightening the consciousness of Edmonton people as to the value of properly conducted recreation.

It has quite definitely established the fact in the minds of most intelligent citizens that leisure hours are fully as important as working hours in the building of a happy and well-balanced life, that character is more a consequence of leisure moments than the pursuit of one's vocation.

This realization, of course, is the essential basis for any adequate recreational program which, to provide a balanced and wholesome use of leisure periods, must include both athletic and artistic projects.

The Edmonton Recreation Commission has been scrupulously careful to encourage both phases of recreation. Yet the preponderance of representation on the Commission has been from the world of sport. And if that preponderance continues there will always be the danger that the artistic side of the recreational program will be emphasized.

Now healthy sports in supervised playgrounds are highly essential to the development of wholesome youth. But the artistic side of the recreation plan must be fully supported and encouraged.

On the other hand, the artistic phase is equally as important and even, in some cases, more important, because while the promotion of sports always leaves a certain number of enthusiasts on the sidelines, the promotion of artistic activities, such as handicrafts, gives everyone, without exception, some useful and interesting thing to do.

That is why it is vital that the Recreation Commission should be enlarged to include a number of persons whose interests are primarily artistic and who can constantly press the claim of artistic art to be recognized.

At present there is only one member of the Commission who can be placed in this category. The protagonists of art should be equal to the protagonists of sport if the Commission is to give maximum service to Edmontonians.

The Experiment Proceeds

When the price ceiling was taken off meat in the United States it became inevitable that controls would be placed on other foodstuffs. These have been swept away and only sugar, syrup, molasses and rice remain under restriction. Otherwise food prices will range up or down according to supply and demand may decide.

This is another step in the experiment of decontrolling under pressure of shortages. In hope that production will be stimulated, supplies increased, and prices eventually fall. That prices will rise temporarily is generally admitted. It is the unavoidable element of risk in removing controls which supplies are short. How high they will rise, and when the expected subsidence will set in, are unanswerable questions.

Abandonment of wage controls is unavoidable. If buyers and sellers are to be free to bargain, employers and employees must also be free to bargain. The experiment is in keeping with the cost of living. Mr. John Lewis anticipated this, and showed what he expects to happen to prices, by demanding another pay boost for his union.

Thus far Canadians have shown no desire to try the de-control experiment on their own account. Since their neighbors are doing it, at the risk of being swept into a whirlwind of inflation, it is less troublesome to wait and see how they come out. With the buying power of the U.S. dollar dropping, and prices still dropping, there is no present temptation to follow their lead.

Plain Speaking

Prime Minister Attlee and Mr. Churchill have at last applied to Soviet policy the logic of the plain speaking that has characterized the controlled Moscow newspapers and radio in their references to the policies of the western powers. It has been a long time since established facts, and without the fantastic imaginings by which the Moscow writers and broadcasters are obsessed.

Those who think world harmony can be furthered by western statesmen pretending not to see what the astute gentlemen in the Kremlin are doing will shudder at this straight-forwardly honest assessment of the City of Moscow. The Moscow writers and those of anti-British and anti-United States bias will holly denounce the speakers as war-mongers.

These reactions are alike inevitable, and alike meaningless. Moscow cannot be coddled into changing its ways by the mere application of plain speaking. It can only be made to believe it does not know aggression when it sees it. Only contempt or amusement can be aroused there should London or Washington profess kindness in the face of so obvious a reality.

Stalin is grabbing territory, undermining democratic governments, and extending his field of influence, wherever he has a chance. He can't be deluded, nor coaxed into giving up his program, by democratic leaders pos-

ing as unaware of what he is about. He knows that they know, and can't be fooled into thinking they don't know.

Moreover, the leaders of the democracies may just as well say openly what they know to be true, and say it in plain terms. There is no security in secrecy. The democracies, the contrary. Pussy-footing leads nowhere and accomplishes nothing save to encourage more aggression.

As for peace being engendered by out-spoken candor, that is nonsense. If it isn't nonsense, then peace cannot endure anyway. Frankness is the condition of international friendship. It cannot be built on sham and preserved by timidity.

Russia does not want war, and does not intend to provoke war. Its masters just want their own way, and will go as far as they can go without precipitating armed conflict. The other powers should make plain that they understand this and are not going in for any more appeasement. They have gone the limit already.

Compassionate Religion

Only one miracle of our Lord is recorded in all the four Gospels. It is the story of the feeding of the five thousand. It is not necessarily the most important miracle nor is it the most spectacular. But it is the miracle that most impressed observers, and was retained in their memories because five thousand mouths were fed and five thousand tongues were thus able to talk of personal experience.

This miracle is eminently worthy consideration today because of its direct application to the duties of Christian people.

It should be remembered that the disciples were all for sending the multitude away. Let these hungry people go elsewhere for their meal; let them go home; let them go to the relief office. This was the viewpoint of Christ's followers who were not selfish or thoughtless men but men who merely subscribed to the popular feeling that society and religion were not responsible for the alleviation of suffering and the relief of want.

The view of our Lord was different. Here were five thousand young people, five thousand famished people. The problem was immediate and personal. It had to be faced in an immediate and personal way.

And that attitude of mind is the essence of the Christian obligation; it is the essential quality in members of society and of a civilization that calls itself Christian.

A vague and abstract ideal of elaborate and efficient plans for aiding the helpless. But members of a Christian society must realize a personal and individual responsibility for the needs of the needy.

That is why such organizations as community chests and other welfare organizations depend upon the generosity of their members for carrying on their work, but on the free-will contributions of individual donors who are personally touched with pity for the unfortunate.

Compassion is the priceless ingredient in charity. Compassion is the ruling emotion in the heart of Christ.

Looking Backward

From The Bulletin Files

1886: 60 Years Ago

At J. S. Edmondson's place, McLeod Brothers through the kindness of the late Mr. W. Johnston Walker's new store was opened for business.

A. Smith, of Lafferty and Smith, private bankers of Regina and Calgary, is expected in Edmonton to establish a branch of the business.

1896: 50 Years Ago

Four ballots were cast for the majority election. H. Sigler has gone to Pigeon Lake. H. Sigler has gone to Pigeon Lake.

M. Halseon has gone to Pigeon Lake. M. Halseon has gone to Pigeon Lake.

W. H. Clark has applied for an order of the court quashing the writ of habeas corpus.

London: Mackenzie King, Canadian deputy minister of labor, had an interview with Lord Elgin on the possibility of passing legislation to prevent false representation intended to induce immigrants to come to Canada.

London: Mackenzie King, Canadian deputy minister of labor, had an interview with Lord Elgin on the possibility of passing legislation to prevent false representation intended to induce immigrants to come to Canada.

Denver: Colonel Roosevelt told a meeting that if he had been in the United States he would have been a more successful politician.

The Thrill That Comes Once in a Lifetime

by Webster

WALLY! LONG TIME NO SEE! SAY, YOU LOOK AS THOUGH YOU WERE FEELING NO PAIN

OH, ROGER, THAT'S QUITE! YOU DO THINK OF THE FUNNIEST EXPRESSIONS!

WHEN YOU LEARNED THAT BANALITY WAS A SOCIAL ASSET

THE GAP AT NUREMBERG

By Dorothy Thompson

Exclusive to The Edmonton Journal

United States Attorney General Tom Clark declared on Monday that the Nürnberg trial established forever the solemn judgment that the waging of aggressive war is a crime and repudiated that "rebut to war is a legitimate instrument of statecraft."

I wish I agreed with the attorney general. The Nürnberg trial did establish that it was, or that it should be, a crime to conspire to wage war, or to participate in the waging of "aggressive" war. It only established that it was a crime for the German people.

THOMPSON

The defendants were charged with and convicted of planning or participating in the waging of aggressive war. But the extent of the conspiracy was not revealed.

The Road Ahead

By Harper Prowse, M.L.A.

Exclusive to The Edmonton Journal

Favorite complaint of many people today is that their personal freedom is being continually restricted by government regulations and laws. Business complains that it is hampered by restrictions that are unnecessary and that the expansion necessary to meet present demands is prevented by the wage-collars. The farmers object to price ceilings on the products they have to sell. Just to practically any company one may hear murmurings against "all these restrictions."

Very few people ever stop to consider that the restrictions that are placed on them are not placed on themselves. The essence of democracy is freedom. It is the right of every citizen to do as he pleases, to do as long as we do not prevent others from doing the same thing, and nobody is hurt by our actions. If each of us would exercise enough self-discipline to put the restrictions on our own backs, we would not have to have the restrictions of others on our backs.

Central and North Alberta News \$1,000,000 Building Program Foreseen for Dawson Creek

BARNWELL CHILD KILLED
LETHBRIDGE, (CP) — Annie Bright, three-year-old daughter of Mr. and Mrs. Steve Bright of the nearby Barnwell district, was killed when accidentally run over by a tractor driven by her father. The child had followed her father who was hauling hay.

Nearly 14,000,000 pounds of best tobacco was sold at auction in Nyasaland last season.

Camrose Firm to Ship Eleven Carloads Eggs

CAMROSE.—Eleven carloads of eggs, to be shipped to Britain via Vancouver, will be shipped out of the Alberta Poultry Producers plant before the end of this month. The shipment totals 210,000 dozen of eggs. The eggs have been in cold stor-

age for some time and it is reported the recent farm strike had little effect on the plant reaching its quota.

In charge of the plant is Reginald (L.F.) Carruthers, well-known luncheon pitcher.

Harvest Difficult

Coronation Area
CORONATION.—Despite several good days for threshing and combining, operations are going quite slowly. Self-propelled combines are in some instances being helped along with four horses. Pests are literally soaked deep down, and wheeling is exceedingly difficult. Trucks have to take away half-loads from threshing machines. Help is also scarce. The successive rainy days, and some home.

The majority of the grain is at least tough, and some worse, but everyone is going ahead anyway, and taking what comes.

NO POLICE UNIFORMS
MONTREAL, (CP) — The cloth shortage has hit the Montreal police department with a bang and as soon as the cold weather sets in 180 rookie policemen now wearing summer uniforms will go out on duty in civilian clothes.

Hutch J. Montgomery of Wetaskiwin, president of the Alberta Fur breeders association, has announced the dates for the annual show. The live animal show will be held in Calgary Nov. 11 to 14 and the fur and skin show in Edmonton Jan. 7 and 8. As the Alberta representative on the Dominion Council of fur breeders, Mr. Montgomery recently attended a meeting in the east when plans were laid for a national advertising campaign addressed to the weavers of fine furs in order to open the marketing of the 1946 crop of ranch furs.

It will be opened shortly. — Mrs. R. Smith has returned from a visit with friends in Ponoka. — Mr. and Mrs. George Crooks, accompanied by Mr. and Mrs. C. Blakney, were in Edmonton visitors. — Miss Anne Cuthaw, nurse of Edmonton, is visiting at the home of her parents prior to her marriage.

KILLAM. — Miss Edna Neely of Killam, is at present the guest of Mr. and Mrs. J. Neely. — A new well may have to be drilled at the hospital as the water supply is at present time running low. — An addition to the Hayward Smith residence is nearing completion. — Fred Kenner, of the Hayward Smith residence, is visiting his brother, Edward and is looking after his farm interests.

Foliage Still Green in Northville Area
NORTHVILLE. Whether the weatherman agrees or not, spring is here. — Saskatoon bushes on islands in the lake have not yet shed their little red leaves that are a sure harbinger of spring. This year's foliage had been shed some weeks ago.

Mosquitoes are pestering duck-hunters, and in woodland glades you can see the odd butterflies and other insects.

Gunners who have been wondering where the ducks have all gone to this season, will be gratified to learn that the ducks haven't gone anywhere—canvases and green-wing teal have just showed up on the lake in fair quantities.

Pinkies and pinks still bloom in gardens here. While cherry and currant bushes are still in the popular green shade and hardy crabsapples haven't shed their leaves.

District Girls Form New Clubs

RED DEER.—Two new girls' clubs have been organized in the Red Deer district, one at Sunnyslope and one at Innisfail.

About 16 girls assembled for the organization meeting of the Sunnyslope Girls' club. The project this club chose to study was "How to Be Well Groomed and Well Dressed." Officers were elected and a short business meeting held.

At the Innisfail Girls' club about 30 girls assembled in the school. The project this group chose to study was first year sewing. Election of officers took place and a business meeting was held during the evening at which time the place and time of the meeting was decided upon.

These clubs are sponsored by the provincial department of agriculture. If there are any groups of girls between the ages of 12 and 22 years interested in the formation of a club they are advised to contact Miss Beatrice Anderson, district home economist, department of agriculture, Red Deer.

District Personals

VEGEBVILLE. — Miss Olga Kalmeyer has replaced Miss Opal Emery on the post office staff. Miss Emery is a bride-elect of November.

The Young People's society entertained their parents and leaders at a regular meeting. The purpose being to increase the parent and adult interest in the group work. A gaily lunch was served and Miss Peggy Nichol led in a singing song. — C. A. Leong, Strathburg, Sask., is visiting his daughter Mrs. J. Fraser. — W. R. Bill Belcher, Edmonton, has been transferred to the Vegreville branch of the Bank of Montreal. — Joe Paner has bought the George Black residence.

NORTHVILLE. — W. L. Demet, Levald, Wildwood, who had the misfortune to suffer severe injuries to his hand while working at a planing mill here, is making good progress toward recovery.

HUGHENDEN. — A large number of friends gathered in the United church recently to bid farewell to Mr. and Mrs. D. A. Coutts who have lived here since 1906. A presentation was made by J. Cochrane. Mr. Coutts first farmed until 1917 and since then has been in the several store business. Mr. and Mrs. Coutts will make their new home at Regina. — Week-end visitors from Edmonton included Mr. and Mrs. A. M. Watte and Helen, Peggy Bertram, and Mrs. Walter Roy. — Mr. and Mrs. J. Martineau and Mrs. Harry Martineau and Mr. and Mrs. Jack Martineau. — The Lions club held a successful carnival and dance in the new garage owned by S. Martineau.

SEGEWICK. — Mrs. P. Neff and Mrs. R. Ostrander, California, are visiting at the home of their parents. — Austin Smith, Massey Harris dealer, attended a Massey convention in Wetaskiwin. — Nick Melnychuk has opened his wash repairing business on Main st. — Local Women's Institute has been furnishing a building to be used as a public library. The library

will be opened shortly. — Mrs. R. Smith has returned from a visit with friends in Ponoka. — Mr. and Mrs. George Crooks, accompanied by Mr. and Mrs. C. Blakney, were in Edmonton visitors. — Miss Anne Cuthaw, nurse of Edmonton, is visiting at the home of her parents prior to her marriage.

Stampede Cahill Dies

J. W. Cahill Dies
CALGARY, (CP) — Well known livestock dealer, J. W. Cahill, died Friday.

Mr. Cahill was chairman of the Indian committee and had been a director of the Calgary exhibition and stampede for the last 20 years. Through his efforts southern Alberta Indians, who have helped to make the Calgary stampede a world renowned event, were encouraged to take part. He was past president of the livestock exchange.

NORTHVILLE. — W. L. Demet, Levald, Wildwood, who had the misfortune to suffer severe injuries to his hand while working at a planing mill here, is making good progress toward recovery.

HUGHENDEN. — A large number of friends gathered in the United church recently to bid farewell to Mr. and Mrs. D. A. Coutts who have lived here since 1906. A presentation was made by J. Cochrane. Mr. Coutts first farmed until 1917 and since then has been in the several store business. Mr. and Mrs. Coutts will make their new home at Regina. — Week-end visitors from Edmonton included Mr. and Mrs. A. M. Watte and Helen, Peggy Bertram, and Mrs. Walter Roy. — Mr. and Mrs. J. Mr. Smith and the Legion...
Young Mr. Smith is going back to school. Young, only 27, yet pretty old for high school. It's going to take courage. But Mr. Smith proved his courage when he was Private Smith, a front-gunner. Young Mr. Smith is going to amount to something.

Behind him stand his Legion comrades. Proud of him and determined to see that he has every chance.

The following report is submitted for the nine months ended 30th September:

Among the outstanding results covering the period under review are:

Tax Collections for the nine months total \$4,703,418.73, an increase of \$414,497.37 over the same period in 1945.

The collection of arrears to 30th September, included in the above figures is \$260,699.48, as compared with \$1,077,951.78 for the same period last year.

Cash sales of Tax Sale Lands and Properties for the nine months were \$1,013,814.09, as against \$799,547.80 last year to the same date, an increase of \$214,266.29.

Building permits for 30th September amounted to \$11,515,213.00 as compared with \$3,397,570.00 for the same period in 1945. Included in these figures is \$5,757,225.00 covering 1,113 new dwellings.

Bank Clearings to 30th September this year were \$460,775.00 being an increase of \$94,319,205.00 over the same period last year, or 20.74%.

Customs receipts for the first nine months of this year were \$6,096,433.00, as against \$4,977,883.00 for the same period last year, an increase of 22.5%.

Gross Revenues of the Civic Utilities to 30th September were \$3,617,550.33, an increase of \$88,379.07 over the same period in 1945.

Electric Light and Power collections are now \$2,003, as compared with \$2,910 at this date last year, an increase of 2.93%.

Street Railway passengers have increased from 24,511,740 to 26,805,133 or 9.7%.

Power output delivered is 88,071,900 K.W.H. an increase of 5,076,500 K.W.H. over last year.

The number of telephone installations has increased from 24,386 to 25,850, and there are 4,000 applications awaiting service as soon as equipment can be secured.

Water consumers have increased from 20,730 to 22,328.

The population has increased from 11,745 to 114,976.

The value of the City's assessment has increased by \$3,546,930, the seventh consecutive substantial increase.

The debture debt of the City has been reduced by \$315,000.

The City's Debture Debt has been refunded to the extent of \$2,039,157.00, completing the transition from the Sinking Fund to the Serial Bond financing plan.

The per capita Debture Debt has been reduced to \$141.65, as compared with \$383.61 a decade ago.

Financial

During the period under review the last of the outstanding Debture Debt of the City was refunded, or redeemed. On 1st February last the City called in bonds in the amount of \$2,039,157.00, which \$231,377.00 in the amount of \$2,039,157.00 were redeemed from monies on hand, and the balance of \$2,039,157.00 in U.S. funds was refunded in New York, at a net interest rate of 3.56%.

This compares with a net interest rate of 3.99% on the first refunding operation in that city in 1944, a reduction of .43%, which represents to a large degree the position which our bonds have attained in the U.S. market. An event of particular interest to the City is the fact that the first refunding operation on July 5th that Canadian funds had reverted to parity with those of the United States. At the commencement of the war the Federal Exchange Control Board, in the national interest, had set the rate of exchange at \$1.00 to the Canadian dollar of 11%, which cost this City an average of \$52,172.00 per annum, representing a total sum over the period from September 1939 to July 5th, 1946, of \$2,039,157.00.

With a period of exactly two years, the value of the debt of the City, as covered by the Refinancing Plan of 1937, has been refunded. The average interest rate has been reduced from 5.638% in 1944 to 3.56%, and the debt has been reduced by \$8,142,723, as at September 30th.

Tax Collections

The total collection of taxes to 30th September amounted to \$4,703,418.73, as against \$4,288,921.36 for the same period last year, an increase of \$414,497.37. Cash receipts from sale of Tax Sale Properties to 30th September this year was \$1,013,814.09, as compared with \$799,547.80 to the same date in 1945. 4,169 parcels have been disposed of to date this year, which will result in a very substantial increase in the assessment for next year. It will be added the value of the improvements made, and to be made, before the year end, which would indicate that there will be a very substantial increase in the assessment for next year.

Due to the scarcity of building materials, the sales of Tax Sale properties, (the revenue from which forms the largest part of the collection of arrears of taxes) have fallen off to a large extent, but the revenue has been maintained, in part, from the point of view of future revenues, as with the assured growth of the City, land values will appreciate considerably. Out of approximately 15,000 acres of land within the City more than 70,000 came to the City through Tax Sale proceedings. 41,819 of these have been disposed of to 30th September last, bringing in a revenue of \$7,115,204.00 and retaining \$10,222,043.00 in the amount of \$17,337,247.00. There are still, approximately, 20,000 parcels to be disposed of within the inner zone, which will be available for sale as rapidly as utilities can be provided, together with much land far outside the inner zone in the course of the next few years will bring in large additional revenues to augment the City's reserve funds, which will be used for improvements, can be made, particularly with today, next to the City's Utilities, it is the City's greatest asset.

Bonded Indebtedness

The gross bonded indebtedness at the present time is \$16,290,013.00, as compared with \$16,865,042.00 at the end of 1945, a reduction of \$575,029.00 within the year. At 1st February, 1947, when the refunding plan went into operation, the bonded debt was \$16,290,013.00. Within the active period of nine years, it has, therefore, been reduced by more than 50%.

debt in 1937 was \$383.61; it is now \$141.65. The composition of the debt is as follows:

Utilities	\$3,047,453
Local Improvements (Property Share)	\$65,024
General	12,377,536
Total	\$16,290,013

A comparison of the per capita bonded debt of some other cities is as under:

Windsor	\$275.00
Calgary	129.96
Hamilton	101.36
Belleville	89.69
St. John's	74.98
Woodstock	83.73

If the present rate of progress can be maintained, it should not be long before this City is on a competitive basis.

Reconstruction

A further program of public improvements has been undertaken during the present construction season. The program covered:

PUBLIC WORKS	
Walls and Crossings	\$100,000.00
Grading, Graveling, Boulevards and Cuts	129,960.00
Paving	710,907.00
Bridges	116,729.00
Drains and Drainage	373,445.00
Parks	41,523.00
Miscellaneous	135,500.00
Total	\$1,568,134.00

UTILITIES	\$2,660,410.00
Total	\$4,228,544.00

The whole of these improvements, with the exception of Local Improvements, property share, is being financed from current funds, without recourse to borrowings. It has not been possible to complete the whole of the program, as many materials presently required and of certain materials, and the only deficiency in the past few months being cement, which has prevented the completion of the paving contracts, together with the balance of the concrete sidewalks and curbs.

Industrial Development Board

A further development in this connection is the appointment of a full-time Industrial Commissioner, in the person of Mr. Graham W. Curtis, who has had a great deal of experience in the securing of new industries. Several contacts have already been made, which are being followed actively, and positive results are being obtained. The City has a great deal of experience at the present time is the securing of necessary premises for such enterprises, existing ones being fully occupied, and materials for new buildings presents serious difficulties. The only avenue which would appear to be open at the present time is an effort of military buildings, and steps have been taken in an effort to make these available for commercial purposes.

Housing

The situation with respect to housing accommodation in the City is still bad. The City-Provided housing scheme in the Parkland and Bow River areas has been practically completed, 228 of the 261 units so provided being presently occupied and the remaining 33 should be ready for occupation before the end of the year. 592 of the 760 warline houses built or being built are presently occupied and of certain materials, and the only deficiency in the past few months being cement, which has prevented the completion of the paving contracts, together with the balance of the concrete sidewalks and curbs.

Housing Enterprises Limited has recently acquired land from the City on the Old Penn site and are going ahead with the immediate construction of 88 apartment suites. They have also obtained an option on additional land and propose carrying the scheme next year.

Up to September 1st, 1946, 1,341 permits were taken out by the Building Inspector covering the construction of new residences, and the total to date is \$1,000,000. In the same time 4 permits were taken out for the construction of apartment buildings. Of the 1,341 proposed residences for which permits were taken out, 110 have been completed and 1,231 are in progress.

The effort made by the Edmonton Building Trades in conjunction with the Dominion Government's priority Office to get all veterans' homes in the City which are 30% complete, finished before the end of the year. The funds for this department have been greatly increased. Many play areas have been levelled in various sections of the City and several new playgrounds have been equipped. This year, the Recreation Commission took over the control of the City's playgrounds. The City has been able to make a yearly contribution of \$1,500,000 for new playground equipment. The advantage of this change has been the use of trained personnel and improved programs.

Today Edmonton is second to no city in Canada in the progress in this department and the plans for the future will give ample accommodation for our young people and trained personnel in the future.

Parks and Recreation

The City has recognized as never before, that our greatest asset is our youth. The Recreation Commission has been formed, the membership of which give their time voluntarily and a paid supervisor and secretary, this year five assistants to the supervisor and four assistants to the secretary. The City has been greatly increased. Many play areas have been levelled in various sections of the City and several new playgrounds have been equipped. This year, the Recreation Commission took over the control of the City's playgrounds. The City has been able to make a yearly contribution of \$1,500,000 for new playground equipment. The advantage of this change has been the use of trained personnel and improved programs.

Today Edmonton is second to no city in Canada in the progress in this department and the plans for the future will give ample accommodation for our young people and trained personnel in the future.

City Architect and Building Inspector

During the first eight months of 1946 the Department has experienced the greatest activity in its history and present record for building permits issued.

From an architectural standpoint the Department has been very busy. The major project under its supervision being the completion of the Telephone Building, the construction of a new annex and administration wing for the Royal Alexandra Hospital, the construction of an addition to the Street Car Barns and the preparing of plans for the new composite High School.

and two elementary schools. The work above-mentioned is expected to cost in the order of two million dollars.

The following statistics are indicative of the construction work done or completed during the eight month period under consideration:

Classification	1946	1945
103 Commercial, New	\$2,170,820.00	\$1,780,000.00
120 Commercial, Repairs, and 103 Commercial, Repairs	1,113,220.00	1,113,220.00
14 Institutional, New	1,415,800.00	276,000.00
14 Institutional, Repairs	350,000.00	22,800.00
1341 Residential, Dwellings \$1000 & over	3,526,225.00	3,408,400.00
1341 Residential, Dwellings under \$1000	2,800,000.00	2,800,000.00
6 Residential, Apartments	1,300,000.00	72,500.00
6 Residential, Alterations & Repairs	311,700.00	284,200.00
60 Residential, Additions	19,673,110.00	19,673,110.00
40 Miscellaneous, New	134,223.00	366,400.00
40 Miscellaneous, Repairs	13,585.00	85,570.00
Total	\$11,099,583.00	\$45,792,920.00

Safety and Health

Despite a continued shortage of living accommodation in the City, the general health of the population has remained very good. There has been no epidemic of any major communicable disease during the period. Only smallpox and measles appeared at epidemic proportions. The Health Department carried out 4,144 investigations for all types of communicable disease.

During this period 3,327 children received protection against diphtheria, whooping cough, measles and other preventable diseases, entailing the giving of 7,114 inoculations. This is a fifty percent increase over the same period of last year. It is gratifying to observe the growing appreciation of this service by parents.

Sanitary inspection of 9,933 premises was made by Health Department inspectors, and 605 complaints of foodstuffs were investigated. Some 27,000 pounds of foodstuffs were condemned as unfit for human consumption. The greater part of this was damaged by fire and water.

The department's veterinary inspectors inspected 6,570 carcasses at local abattoirs, and condemned 24,540 pounds of diseased meats. In the safe-guarding of the city's milk supply, 741 sanitary inspectors visited dairies, and 1,113 samples of milk were taken. To the Child Welfare Clinic were brought 5,579 babies and preschool children for physical examination and instruction regarding care and feedings.

The city bathhouse and disinfecting station continues to render a useful service, particularly in the eradication of vermin from school children.

The Health Department has also continued to make its facilities available for teaching of public health to nurses and medical students.

Fire

The following is a comparative tabulation showing fire calls and losses for the past six years:

Year	First	Adjusted Loss	Per Capita Loss
1940	651	\$143,228.00	\$4.40
1941	1002	273,903.00	2.91
1942	1002	273,903.00	2.91
1943	885	170,616.00	1.61
1944	888	205,045.00	2.72
1945	205	207,286.00	1.80
1946	747	500,529.00	4.33

(Jan. 1—August 31)

During the first eight months of the present year a large fire loss in the City with losses as follows:

Northwestern Utilities	\$3,200
Galper's Store	28,157
MacCosh's Storage Building	255,637

The above four fires have been largely instrumental in increasing the per capita fire loss considerably above that experienced in the past three years.

The three-platoon system was installed and has been in effect since May 1st of the present year.

Police

The strength of the Force at August 31st, 1946, was 120, which number includes all ranks, clerical staff, janitors, etc., and 12 to 15 in increased expenses for providing additional equipment in strength has been due to increased demands on the Department and the remaining increase to the institution of the 44th.

Motor vehicle equipment is in good condition, most of the old cars and motorcycles having been replaced with new equipment. Most of the radio equipment has been overhauled and is in reasonably good condition.

Engineering Department

Construction in 1946 has again been carried out under exceptional difficulties, particularly with regard to supplies of cement, sand and gravel, and the cost of providing additional equipment in strength has been due to increased demands on the Department and the remaining increase to the institution of the 44th.

The following construction has already been completed this year:

SIDEWALKS	
—Bituminous Surfaced	9.96 miles
—Concrete Walks	0.96
—Concrete Sidewalks	1.41

ROADWAYS	
—Paving	4.25 "
—Grading and graveling of streets	4.45 "
—Grading and graveling of streets	4.45 "
—Concrete curbing	6.47 "
—Boulevards	2.01 "
—Light grading streets	0.59

SEWERS	
—Mains not including services or catch basins	6.51 "

PARKS

—Grading, levelling and seeding of recreation grounds at seven locations. — Acres

In line with the policy of providing additional public transportation the following proposed new bus routes are now paved and ready for use as soon as the buses on order arrive:

- From 88th Ave. and 126th St. to the new Cleverdale Hill to 98th Ave. and along same to the south end of the Low Level
- East on 76th Ave. from 99th St. to 98th St.
- South on 106th St. from 76th Ave. to 70th Ave.

In order to expedite traffic on the major City arteries new traffic lights have been installed at 106th Street and Jasper Avenue and it is the Department's intention in the near future to install safety lanes adjacent to the street car loading platform at the intersection of Jasper Avenue and 101st Street.

Most of the severe construction carried out in 1946 has been contracted to accommodate new housing and in line with the policy of trying to provide sewers in streets already served with water mains.

The rapid growth of the City in the last few years is reflected in increased expenditures in the Department for operational and maintenance work. Paving maintenance has again been very heavy on streets used by the City's buses.

During the year 1946 collection of refuse has been largely converted from the old method of hauling by team to the use of trucks and it is hoped that new modern garbage collecting equipment will be available in the near future. One of the larger "open" dumps in the northeast section of the City has been filled up and is no longer being used.

Shortages of material and labor have made it impossible this year to carry out the large needed reduction of over bridges. Shortages of material and labor have likewise prevented construction of badly needed storm relief sewers with the result that considerable basement flooding was encountered

ed during the past summer during which time several heavy rainfalls were experienced.

The golf links and swimming Pools have again proved very popular and have enjoyed satisfactory seasons.

On August 1st the five day week was commenced in all branches of the Department and a 1946 record expenditure has increased considerably from a year ago.

Power Plant and Pumping Plant

Electrical energy delivered to the City Electric Light Department to the Street Railway and to the Water Pumping Plant during the first eight months of the year showed an increase of 5% as compared with 0.5% during the same period of 1945. The overall increase in the City's power, however, showed a decrease from 103,294,000 K.W.H. to 89,758,000 K.W.H. during the same period, essentially because of the fact that the Calgary Power did not purchase power from the City as the extent required during the same period of time in 1945.

The adjustment of the rate at which power is sold to the Electric Light Dept. from 1.31¢ per K.W.H. to 1.16¢ per K.W.H. on April 20th, 1946, has resulted in decreased revenue of \$21,066.50 during the months of May, June and July, which amount is well below that estimated by the City Commissioners at the time the electric light rates in the City were reduced. Power Plant revenue as a whole is down 8.5% from that for the same period in 1945, principally because of lower rates to the Electric Light & Power Dept. and because of smaller sales to the Calgary Power Co.

Reserves set aside for extensions during the first eight months of 1946 amount to \$250,940.40 as compared with \$218,201.36 in the same period of 1945.

The cost of generation of power per K.W.H. has been lower during 1946 than last year because of the reduction in the cost of coal. The cost of power was \$0.42 per K.W.H. in 1945, as compared with \$0.40 per K.W.H. in 1946, as compared with \$0.39 per K.W.H. on May 1st, 1946.

Water Pumping Plant

During the first eight months of 1946, 4.5% more water was sold to the Waterworks Dept. than was the case in 1945. Work on the addition to the plant was commenced during the spring and at August 31st forty-five percent of the concrete required had been poured. The work will not be completed until 1947.

Electric Light and Power Department

On May 1st, 1946, a new schedule of light rates went into effect, the said schedule being so formulated that all city consumers of power would get some benefit therefrom. At the time of the inception of the new schedule it was estimated that the decrease in revenue for the balance of the year would be the order of \$25,000 per month on the assumption that power consumption for the remainder of the year would be approximately 95% in excess of the same period of 1945. In 1945, it was accordingly decided to let the Power Plant make approximately \$12,000 of the monthly estimated decrease in revenue, the remaining \$13,000 to be taken by the Electric Light Department. This was accomplished by reducing the rate charged by the Power Plant to the Electric Light Department from 1.31¢ per K.W.H. to 1.16¢ per K.W.H. It was also estimated at the time that the Electric Light Department would recoup its decreased revenue in three years and that the Power Plant would require five years to do likewise. Statistics obtained to date indicate that the above-mentioned estimates to be on the conservative side.

In view of the revised rates it becomes readily apparent that while the power sold during the first eight months of 1946 was 5% in excess of the same period of 1945, the actual net increase in revenue to the Department was only \$2,639.46, and that for all of 1946 will definitely be considerably less. It is interesting to note that while electric light revenue has increased, revenue from power sales has increased as in past years, no change in power rates having been introduced at the time the electric light rates were lowered.

Sales of electrical energy by the Department during the 8 months concerned have increased by 1,512,218 K.W.H. the comparative figures being 58,611,573 K.W.H. against 57,099,204 K.W.H. in 1945. Net revenue for the 8 month period is \$240 in excess of figures.

31,783 meters were in service on August 31st, 1946, compared with 29,312 on the same date in 1945. 1,942 new meters were provided during 1946 as compared with 694 last year. 2,691 street lamps were in operation on September 1st, 1946, as compared with 2,691 on the same date in 1945. 11,000 miles of poles have been constructed during the first 8 months of the year.

The many strikes in different parts of the continent have had very serious effects in curtailing the Electric Light Department's normal expansion program. Electrical fixtures and appliances remain very scarce and until such time as they become more plentiful the Department's growth is bound to be restricted.

The Edmonton Transportation System

The following statistics give an interesting comparison of the operation of the System for the first eight months of the year as compared with the same period in 1945:

	1946	1945
Total Revenue	\$1,177,574.00	\$1,064,886.00
Total Expenses	\$1,177,574.00	\$1,064,886.00
Surplus on operation	\$114,200.00	\$114,200.00
Capital Charges	\$1,826.00	\$1,826.00
Renewal Reserve	\$9,000.00	\$9,000.00
Taxes	70,720.00	63,320.00
Deficit	9,672.00	9,672.00
Surplus	21,877.00	4,762.00
Passengers	21,877.00	21,877.00
Mileage operated (miles)	2,865,888	2,550,228

Construction of double track on 14th Avenue from 95th Street to the Exhibition grounds, and the widening of 14th Avenue and 124th Street and 115th Avenue to 125th Avenue has resulted in improved service on both lines. In addition to the above described construction more work than usual has been carried out on renewals of poles, and the fastening of rails and the ballasting of tracks, with the result that the trackage is now in a very good operating condition.

The City's electric streetcar system has buses and the twenty-two trolley buses now on order, and some of which should already have reached the City, has been delayed and it now appears that the gas buses will not be delivered until the latter part of December with the trolley buses following in the spring. In the meantime the extension of the car barns to house the new buses has been proceeding comparatively slowly, but it would the City's electric streetcar system is in very good condition to handle the winter's bus delivery, will be completed in the near future.

Due to the heavy demands on the equipment and the difficulty experienced in obtaining delivery of necessary materials every effort has been made to continue the program of overhaul and painting of passenger equipment, with the result that the City's electric streetcar system is in very good condition ready for winter operation.

Major and Minor Notes

By John Oliver

Nan Merriman, mezzo-soprano, will lead off in the regular Celebrity Series subscription concert sponsored by the Women's Musical Club, in McDougall United Church at 8:30 p.m. next Friday. While the Don Cossack choir already has appeared, it was an extra event in which regular patrons had no opportunity to see. This time the Merrimans' first appearance here and even at this early date she is expected to bring home by a Cossack house.

She is one of the youngest of the first-string artists. Before 1940 she was known of her singing in a vocal circle. But in that year she won a contest entitling her to a solo appearance at the Easter Bazaar service at Hollywood Bowl, and she continued to win an open competition for a place in the Cincinnati opera in 1942.

Her record was John Oliver an appearance on the opening night of the season.

The next year she captured a 1943 award sponsored by the National Federation of Music Clubs. In the same year she appeared as soloist with the Cincinnati Symphony, under Eugene Goossens; signed a 5-year contract with the National Broadcasting Company and was engaged by Arturo Toscanini to sing on an all-Evening program.

Further success came in 1943 when she appeared as soloist with the New York Philharmonic-Symphony orchestra in Leonard Bernstein's "Jernholm" Toccata had been so impressed with her the year before that he signed her for a Red Cross benefit concert, and she was engaged for a solo appearance with the New York Friends of Music.

In 1945 she appeared again with the New York Philharmonic as soloist with Lucia Pao "The Prairie," also she sang again under Toscanini's direction in "Orpheus."

Her program is as follows: "Where-Ver You Walk, from 'Beneath the Marriage of Figaro'; Mozart: Rinaldo and Habemus, from 'Carmen'; Bartok: 'Mundus, Debussy: 'Mist; Les Femmes d'Alas, Chanson; Camille, Poulenc: 'Recluse'; and Cavotte from 'Mandolin'.

Chorus: a series of folk songs from the Riverside (Brazil) arranged by Manning; "If for Bary," (Belgian street song), arranged by Hughes; Danny Boy (London-derry Air), arranged by Weather; Mene Metlez, Le Chien (Provence Bourgeois) arranged by Boumard; Berolita (Mexican) Ponce; Every Time I Feel de Spirit, (Negro) arranged by Piccini; To Me in My Dreams, Brister; The Dancer, Barker; Do Not Go to the Sun, and Miranda; Hasemann; Two songs from the comic opera 'Hans and Gretchen'; I Hate Music and A Big Indian. Ralph Linsley will be at the piano.

The first meeting of the University Music club will be held Sunday at 2:30 p.m. in Convocation Hall. The program is as follows: organ by Prof. H. McKee; vocal solo by Miss C. Morgan; Prelude in C minor, Brahms; Romance sans paroles, Chopin; The Kiev Procession, Ma-gorsky; vocal solo by Miss C. Morgan; soprano, Night and December, in Evening's Glow, Schu-ber; The Cherry Tree Both Bloom, Goss; piano solo by Benah Grunnet; Mozart; and Scherzo, Griffes. Miss Muriel Mills will be Miss Cullen's accompanist.

Alberta college, since its inception, has taken an interest in the musical culture of this city. Pursuant to this, in collaboration with the Alberta Federation of Music Department, the association will present a recital Sunday at 2:30 p.m. in the library by leading candidates entered by the college in recent years.

The young performers will be heard in instrumental, vocal and declamation classes. The recitalists these student recitals is to afford an opportunity for the public to see to acquire confidence in public ap-pearance. The Alberta Federation of Music has expressed gratitude for the public response to the recital, and with the library board looks forward to continuing them.

Mosart will be the subject of the

Edmonton Has Another Record Breaking Year In A Civic Services

(Continued from Page 8)

shortage of raw materials this apparatus will not be ready for service until June 1947 and March 1948.

An extensive program of underground conduit and cable construction commenced this year. Up to the present time 28 cable vaults have been installed and 9,000 feet of underground duct system have been added using 70,000 feet of 4 inch fibre conduit embedded in concrete.

Over 16,500 feet of 600 pair cable have been drawn into the above conduits. These cables are now being spliced and will soon be ready to provide relief in many districts where the aerial cable distribution system is greatly congested.

The new Main Exchange building is nearly completed and should be ready to accommodate the first unit of central equipment when it arrives early next year.

Waterworks Department

The amount of water distributed in the City for the past eight months of 1946 is up 4.2% over the same period of 1945. Cash revenue is up 3% and expenditures are up 11.5%.

During the period, under review 6 1/2 miles of new watermain have been laid, 600 house services have been constructed and 1,050 meters have been installed.

At the present time there are 830 house services and 1,000 meters, together with several miles of mains waiting to be installed.

Insufficient technical personnel, skilled and unskilled labor, together with an acute shortage of many materials and tools, are as noticeable in this Department as in most other organizations across the country. The use of machinery is not a cure-all for a Waterworks System.

The foregoing, about shortages, is applicable to the ordinary maintenance work of the system, and likewise, is delaying the renovation and enlargement of the distribution piping.

J. Hodgson, Commissioner.
D. B. McEwen, Commissioner.

Loaves to Return To Normal Size

WASHINGTON, (AP)—The United States agriculture department Friday revoked a government food order which required bakers to cut the size of their loaves 10 percent to save wheat.

This requirement was "put into effect last winter during the critical winter months of 1945-46. It also required bakers to enrich white bread and rolls with wheat germ and bran." Officials said they expected most bakers to continue voluntarily to enrich many of their products.

Asks Prison Term In Black Marketing

MONTREAL, (CP)—A price board prosecutor Friday asked imprisonment or a \$20,000 fine in a black market case in which it was

"Sleeping Beauty" ballet music also will be heard.

Many Edmontonians were familiar with George, a well-known musician who died this month at the age of 51. Born in Montreal, he came to Edmonton in 1909.

He was a tenor in the Edmonton male chorus and a frequent winner in musical festivals. He organized and was musical director of the 50-member Civic Opera and the Loric Musical and Dramatic club. He also was heard frequently over the air.

He belonged to a well-known choir in Montreal and many tenor lead in several previous years. His life also was an active sportsman.

Mrs. Leonard Davis, recently returned from Vancouver, was the speaker at the October meeting of the Edmonton Music Teachers' association. She spoke of working on the Performers' committee of the Vancouver Music Teachers' association with such well known artists as Arthur Benoit, Dr. Straton, Max Krant and Clement G.

Arthur Newcombe presided and the next meeting will be held on the second Thursday in November.

Russians Claim New Cancer Aid

WASHINGTON, (VNA)—A radically new treatment of cancer by preparation of cancer-eating bugs, closely akin to the germs of African spruce, has just been announced in Russia.

The tried results have been so remarkable that, it was learned at the national cancer institute of the public health service, one of the large American medical foundations has sent an expert to Russia to observe the new treatment at first hand.

There can be no valid judgment concerning it until this man has reported his observations. The treatment is known as KIR, after the initials of its discoverer, Nina Kiyeva and George Roikin. The announcement came from the Soviet institute for cancer research, which has reported, "was first tested on human beings one year ago, after years of experience with work on cancerous mice. The clinical observations showed that 'KIR' had little effect in cases of cancer in the skin. It was highly effective in cancer of the throat, of the breast, and of internal organs."

Twenty years ago Prof. Roikin of the Moscow state university set himself the task of finding a living organism capable of fighting the cancer cells. He based his research on the confirmed theory of the antagonisms existing between living organisms in their struggle for existence. His attention was drawn to Trypanosoma cruzi, a one-celled animal and carrier of a disease mortal to man and beasts. Further research proved that the trypanosome, on being introduced into the organism of a mouse suffering from cancer, penetrated to the tumor and multiplied, devouring the cancer cells.

According to the national cancer institute this particular organism is the one believed responsible for South American sleeping sickness.

Name Canadians On U.N. Boards

NEW YORK, (CP) — R. H. Louis St. Laurent, chairman of the Canadian delegation to the United Nations general assembly, Friday announced the assignment of committee duties in his group. For each of the six standing committees, he assigned the following delegates: St. Laurent, chairman; Louis St. Laurent, chairman; Louis St. Laurent, chairman; Louis St. Laurent, chairman; Louis St. Laurent, chairman; Louis St. Laurent, chairman.

IT'S EASY when you know how!

Maybe you are one of the more than three million Canadians who bought Victory Bonds. Perhaps you paid for them on the installment plan and were delighted to see how quickly—and easily—you accumulated a backlog of savings which gave you a new feeling of pride and assurance. Perhaps you bought them for cash. You were pleased to see how the interest mounted up—how these bonds made money for you, year after year.

Yes, it's easy when you know how! If you were a Victory Bond buyer, we don't have to tell you that the new Canada Savings Bonds present an opportunity for saving and investment that's too good to miss. If you haven't already discovered how easy and convenient it is to save by means of bonds, now is the time to make a start—to stop wondering how other people manage to put away a nest egg, and start accumulating one of your own.

You can buy Canada Savings Bonds in units of \$50, \$100, \$500 and \$1,000, through any bank, authorized investment dealer, stock broker, trust or loan company—for cash or by the monthly Savings Plan. Where your employer offers a Payroll Savings Plan you can buy Canada Savings Bonds by regular deductions from your pay. You may buy up to \$2,000 per person. They pay 2 1/2% interest each year for 10 years. Your bonds will be registered in your own name, providing protection against loss. You can cash Canada Savings Bonds at full face value, with interest, any time at any branch in Canada of any chartered bank.

But please remember this point—these are "Serve Yourself" Bonds. This time there are fewer salesmen. They will not be able to call on everyone. So it's up to you to take advantage of this fine investment opportunity—without delay!

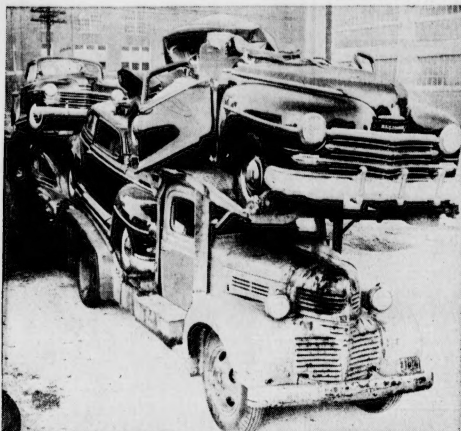

8 out of 10 will buy again Canada Savings Bonds

**NAVY'S NEW TRAINING PLANE CAN
CLIMB 1,000 FEET PER MINUTE**

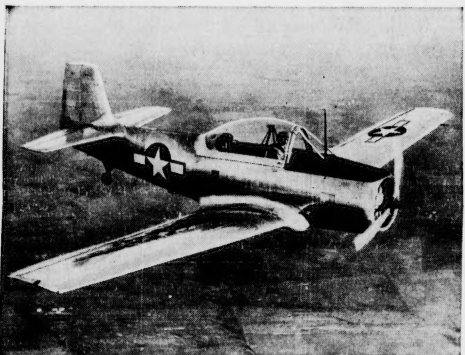

**AL SMITH FOUNDATION, CHARITABLE
ORGANIZATION, DEDICATED IN N. Y.**

Copyright, 1946, by Acme Newspictures, Inc.

SHEARED BY LOW BRIDGE—Four new cars were damaged when this auto transport truck didn't clear a viaduct structure near Moline, Ill. The top of front car was completely sheared.

NAVY'S NEW TRAINER—Making its test flight over Hagerstown, Md., this new Navy primary training plane—XNQ-1—is capable of climbing 1000 feet per minute and has controllable pitch propeller, bubble canopy, retractable landing gear and all-metal skin. Former primary trainers of both the Army and Navy were aircraft operated at low speeds and low altitudes.

NEW JOB FOR "THE LIP"—Noted for "sounding off" at umpires during ball games, Leo Durocher, manager of the famous Brooklyn Dodgers, autographs a baseball for a young fan, Richard Allen, of Brooklyn, following Durocher's first broadcast of his own radio show.

DAYS OF YORE are being celebrated in Carson City, Nev., during Nevada's 82nd birthday this month. Here Sen. Kenneth F. Johnson shows what is being worn at all business and social gatherings by inhabitants of the battle born state.

PHILANTHROPISTS—These church, civic and state leaders met at the Waldorf Astoria Hotel in New York to inaugurate the Alfred E. Smith Foundation, a relief organization. Left to right, Charles H. Silver, W. Averell Harriman, Cardinal Spellman, General Hodges and Basil O'Connor.

GETTING READY FOR THE KILL—Prospects are bright for big Thanksgiving dinner this November, according to owners of turkey farms in Ohio. This flock of hens belong to Ned, left, and Garth Brockett, whose farm is near Akron.

SCOUT LEADERS—Lord Rowallen, right, Chief Scout of the British Commonwealth and Empire, chats with Dr. James E. West, Chief Scout of the Boy Scouts of America, during a luncheon given in honor of the British scout leader in New York.

SHE'S ONLY KIDDING—Little Rose Palmer isn't as tough as the brassard and MP arm band imply. A friendly MP dressed her like this when she arrived in New York from England. Rose's mother is a war bride and they joined Mr. Palmer in Volant, Pa.

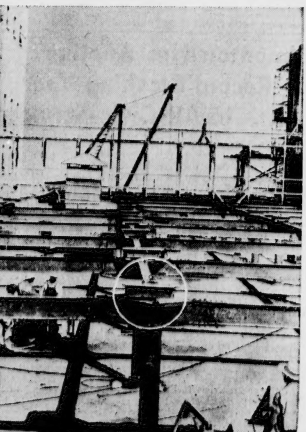

PLASTIC VILLAGE—Frances Stockdale, Marjorie Hallick and Mildred Wood, left to right, examine model village of plastic miniature homes which were made with a new toy building set in Chicago. The sets enable children to build houses to exact scale.

A LITTLE DIFFERENT are these new swimming suits modeled by Phyllis Robinson, left, and Dorothy Ames. Phyllis' suit is a white wool hand knit while Dorothy's is black trimmed in gold braid. What the gloves are for is anybody's guess.

THEY BELIEVE IN MERCY for Jeremiah N. Everwine, driver of a car that struck and killed Irene McGrann, sister of little Rita, left, and daughter of Mrs. McGrann, right. Mr. and Mrs. McGrann asked Camden, N. J., court for mercy and the judge reduced Everwine's sentence of three years to three months.

IN ANTICIPATION—Shown in the circle is a new earthquake roller bearing, one of 65 sets which will provide a rolling foundation for the three-story addition to a Los Angeles building. The entire addition will be able to shift six inches.

New Officer-Training Plan Is Announced

Anticipating Canadian universities to be the main source of officers for the three components of Canada's army, active, reserve, and supplementary forces, military training as administered by the Canadian Officers Training Corps has been revamped to fit the needs of a streamline defence force.

THROUGHOUT Canada where qualification at the Canadian staff course

Current Affairs Explained at Meet

OF **THE PRESENT** university students enrolled for the new COTC training approximately half are veterans who have returned to complete interrupted studies.

The new plan for officer training is to be on a three year basis divide their training into theoretical and practical phases. As temporary officers, they will receive no training, students are now required to complete three years training before being granted a King's commission. The theoretical phase carried on during a student's first, second and third year in the university. The practical phase in London, Russia and the United States are both trying to live up to their own conceptions of the Atlantic Charter, but each country is also trying to protect its own interests. Russia is endeavoring to maintain a wide sphere of influence for its own protection. The same situation prevailed in even the smallest country.

H.A. Clyde, Guest Speaker
H. A. Clyde will be the guest speaker at the regular meeting of the Edmonton branch, Canadian Handicraft Guild, to be held in the Museum of Arts, Tuesday at 3 p.m.
Mr. Clyde is the professor of Art at the University of Alberta and head of the art division at the Banff School of Fine Arts for many years. His subject will be "Design as Applied to Handicraft."
All members and prospective members are asked to attend.

Clover Bar Group Holds Annual Supper
Clover Bar United church members held their annual chicken supper Wednesday evening. A supper program was presented by a group of Edmonton artists. The Rev. M. Johnson was chairman and community singing.
Artists included Miss Sydney Ross, Master David Ross, Mrs. Stan Ross, Miss Lela Grant, Mrs. H. Kinloch, Miss Audrey Hainstock, Mr. and Mrs. J. Robinson. Accompanists were Mrs. T. Gullacher and Mrs. F. R. McCalla, Bremner.

Miss Pearl Potter Bride In Ceremony at Home
The home of Mr. and Mrs. Allan Potter was decorated with bouquets on pink carnations and white chrysanthemums recently for the marriage of their daughter, Miss Pearl Eliza Potter, to Arthur Frank Lindsay, son of Mr. and Mrs. J. Lindsay, all of Edmonton. The Rev. C. E. Rogers performed the ceremony under an archway of pink and white streamers and white bells.
The bride, given in marriage by her father, wore a dark gray afternoon suit accented with royal blue accessories. Her coronet was of Talamon roses and her only jewelry was a pearl necklace with matching earrings.
Miss Irene Potter attended her sister as bridesmaid. She wore a daytime suit in navy blue with accessories to tone and a corsage of Talamon roses.
Best man was Harold Lindsay. After the ceremony a reception was held at the Royal George hotel where the bride's table was centered with a three-tier wedding cake.
TOAST to the bride was proposed by Mrs. S. C. Baxter.
For her daughter's wedding, Mrs. Potter wore a pastel blue dress with contrasting black accessories and a corsage of gardenias. Mrs. Lindsay wore all of the bridegroom.

Club Hostess Plans Parties
Planning weddings, banquets, teas and luncheons every day is the interesting work of Mrs. Wilfred Garner, popular hostess at Club Roosevelt.
Mrs. Garner's background of a social life in Edmonton, running her own home and raising a daughter, Marjorie, 17 years old, fits her admirably to meeting the public, gaining their confidence and planning their entertaining for them.
THE HOSTESS DOES all buying for the club, which is no easy matter with food shortages. She buys the table decorations and arranges menus for parties. She has been asked for all kinds of advice on etiquette for wedding receptions and parties.
The Club Roosevelt lends itself for parties given by fastidious hostesses. The nightly dinner dances attract Edmontonians. A new venture to start Saturday afternoon is the Saturday tea dance which will be held from 3 until 5:30 p.m. Mrs. Garner says the university crowd that signifies its intention of attending but she says she hopes women shopping in town will not be in for tea. A male escort is not necessary.
Fall thanksgiving meeting of the Edmonton branch of the Montgomery Branch, No. 24, Canadian Legion, in honor of the Legionettes, girls' football team, in the Macdonald hotel, Thursday evening.
Alderman Syd Bowcott was chairman. Robert Hylthman, manager of the Legionettes, thanked the Legion for its co-operation and assistance during the last year. Presentations were made by Miss Rose Marie Rumbach, chairman of the Canadian Legion, to Mr. Hylthman, Jack Harrison, coach, and William Tiffin, ball boy.
Among the Legion representatives present was Percy Gwynne, president of the Montgomery branch. Entertainment was given by Pat James, William Ness and James Grant.

MARRIED 61 YEARS SATURDAY: Mr. and Mrs. G.W. Bagnall, 6519 106th avenue, who will celebrate their 64th wedding anniversary on Saturday with a family gathering at their home. Both were born in Prince Edward Island. Mr. Bagnall is 85 years old and his wife 84. They were married in the Presbyterian church in Cavendish, P.E.I., Oct. 26, 1882, and came west in 1911 to Edmonton and lived here until two years ago when they went to Spokane to visit. They returned to Edmonton Thursday evening. They have 12 children, 18 grandchildren and three great grandchildren. Mr. Bagnall owns the Alberta Wood and Coal Company until his retirement two years ago.

Legionettes Entertained
More than 35 persons attended the complimentary dinner given by the Montgomery Branch, No. 24, Canadian Legion, in honor of the Legionettes, girls' football team, in the Macdonald hotel, Thursday evening.
Alderman Syd Bowcott was chairman. Robert Hylthman, manager of the Legionettes, thanked the Legion for its co-operation and assistance during the last year. Presentations were made by Miss Rose Marie Rumbach, chairman of the Canadian Legion, to Mr. Hylthman, Jack Harrison, coach, and William Tiffin, ball boy.
Among the Legion representatives present was Percy Gwynne, president of the Montgomery branch. Entertainment was given by Pat James, William Ness and James Grant.

Mrs. Manning Guest Speaker
Mrs. Ernest Manning was guest speaker at the quarterly open meeting of the Social Credit Women's Auxiliaries, held in the Social Credit hall, 3912 Jasper Avenue, Tuesday evening.
For the meeting, the hall was decorated in Halloween colors. Mrs. S. E. Carter had charge of the musical program.
The meeting opened with Mrs. Myers, president of the Social Credit Women's Council, in the chair. A sing-song was conducted by R. E. Browne and later in the evening, sports entertained the audience with a comic song.
Mrs. James Scott gave a violin solo and Walter Mattson entertained with a bass solo. Electionists for the evening were Mrs. J. M. Dean who gave several humorous readings.
Mrs. C. M. Haggitt and Miss Una Palmer gave a vocal duet.

Farmer's Wife Likes Politics
REGINA, Oct. 26, (CP)—Although no author is mentioned on the cover of the Saskatchewan government's new fish cook book, it is no secret that Lena Phelps, wife of J. L. Phelps, natural resources minister, put it together as well as her political speeches in the Saskatchewan constituency and the chocolate cake she serves her three children.
Research into law is another phase of Mrs. Phelps' varied activities which include helping with her husband's correspondence and other office work.
"BUT I AM a farmer's wife at heart," she said, adding however that she likes politics, the C.C.F. brand in particular.
But Mrs. Phelps has no political ambitions for her own.
"I can make a better contribution as Joe Phelps' wife than to go into politics on my own."
RAISED on a farm near Saskatchewan, she received her high school training there. While teaching at Wilkie, Sask., she met and married Mr. Phelps who still owns a farm in that district.
Mrs. Phelps says her husband had no desire to leave his farm to take up a political career. But when he was offered the Saskatchewan C.C.F. nomination he accepted under protest, thinking nothing would come of it.
Mrs. Phelps says the family is coming forward to going back to the farm.

Matron-in-Chief of Nurses For DVA Visiting Edmonton

There is still a shortage of nurses in all the provinces but the shortage is most acute in Ontario and Quebec," said Miss Macleod, matron-in-chief in charge of nursing service of the department of veterans' affairs with headquarters in Ottawa. Cause of the shortage of nurses is in the fact that industrial centres require many nurses and many others are doing public health nursing. Miss Macleod said.
She is in Edmonton until Monday, guest at the Macdonald hotel. In the course of a semi-annual tour of DVA hospitals from Halifax to Victoria. She has been with the DVA since July 1935, after she returned to Canada from overseas.
MISS MACLEOD, who before this war was director of the School of Nursing, University of Alberta for three years, enlisted in Edmonton and went to England in August 1919 where she was stationed at the No. 1 Neurological Unit at Basingstoke as matron of the hospital for one year then she was posted to the No. 5 Canadian General Hospital at Tashmoo from October 1921 until May 1934. She served also in the Mediterranean theatre of war.

MATRON-IN-CHIEF—Miss Agnes Macleod, matron-in-chief in charge of nursing service for the department of veterans' affairs, who is visiting Edmonton. She was on the staff of the University Hospital prior to going overseas in the recent war.

Shower Is Held For War Bride
Complimenting Mrs. S. F. Hahner, a war bride from Holland, a miscellaneous shower was held at the home of Mrs. V. Willis. Guests were Mrs. W. McLennan, Mrs. S. G. Halberg, Mrs. Roy Huxar, the Misses Jean McLennan, Thelma Jolley, Ruth Aleeth, Vida Flaker, Audrey Stoen, Loretta Wilson, Isabel Stoen, Esther, Norman and Evelyn Halberg.

Tea Honors Recent Bride
In honor of her daughter, Mrs. Arthur Frank Lindsay, the former Miss Pearl Eliza Potter, Mrs. Allan Potter entertained recently at a "trousseau" tea at her residence, 12348 121st street.

RECEIVING her guests, Mrs. Potter wore a pale blue afternoon frock with contrasting black accessories and a shoulder corsage of white carnations. Her daughter, who was wedding emcee, a dark gray dressmaker suit with royal blue accessories and a corsage of Talamon roses.
White chrysanthemums and white and pink carnations were used throughout the reception rooms. The tea table, laid in here, was centered with a two-tier wedding cake and vase of Talamon roses, flanked by tall white paper in silver holders.
PRESIDING at the tea was in the afternoon were Mrs. J. Martin and Mrs. E. Roycroft. Assisting in serving were Mrs. William Lindsay and Mrs. E. Macdonald.
In the evening, Mrs. C. E. Rogers and Mrs. L. Martin poured tea, and the Misses Roy Roycroft and Isabel Foxall assisted in serving. Mrs. Alfred Foxall assisted the hostess.

Mrs. Hugh W. Nesbitt, who has been holidaying in Vancouver, guest at Hotel Vancouver, returned to Edmonton Friday evening.
The antlers of all deer, elk and even giant moose are grown and discarded each year.

Unique Feature to Mark Anniversary of Church

BY HELEN FERRIS

A stained-glass panorama of Canadian action on the continent in World War II, will be a unique feature of the 25th anniversary of the Highlands United Church tomorrow evening.

HURRIEDLY collected by the Rev. T.C. Davies during actual operations while he was overseas chaplain, the fragments represent 100 churches in various areas of France, Holland and Germany. As a fitting observance of the first anniversary service he has conducted, since his return, Mr. Davies will speak on "The Church in Europe," using the glass pieces as symbols of the churches, and presenting them to his church as a memorial to members who were killed in the war. This is the first such presentation in Edmonton, and probably in Alberta.

The glass fragments will be displayed in illuminated cases against a dark blue background, to set off their rich, glowing colors. The places from which they came will be indicated by tiny flags on a large map.

THE COLLECTION includes a beautiful rose green fragment from St. Etienne, where all the windows were of that shade except the stained glass. The Rev. D. J. C. Elton, MA of St. Stephen's college will preach Sunday morning on "The Church in Our Street". The occasion will be climaxed Monday evening with a special Sunday service on "The Church in Our Street". This is a growing congregation in a thriving section of the city. Rev. T. J. Stanton, MA, is pastor.

SPEAKER: DR. U.E. HARDING
evangelist, author and humorist, who will address members of the First Church of the Nazarene at special services on Sunday. Services will be held at 11 a.m., 3 p.m. and 7:30 p.m. Subject of Dr. Harding's special address will be "Seeing Through the Eye of the Lord". Dr. Harding will also be guest speaker at 8 p.m. meeting throughout the coming week.

Eastwood Church Will Celebrate

Eastwood United Church corner of 119 avenue and 82 street will observe its thirty-fifth birthday Sunday and Monday.

The Rev. D. J. C. Elton, MA of St. Stephen's college will preach Sunday morning on "The Church in Our Street". The occasion will be climaxed Monday evening with a special Sunday service on "The Church in Our Street". This is a growing congregation in a thriving section of the city. Rev. T. J. Stanton, MA, is pastor.

ELECTRICAL SERVANTS

Bring Joy to a Woman's Heart!

In planning your future home don't forget the Electrical Appliances... so clean, efficient, time and labor saving—which can make modern living so pleasurable for the woman of the house.

The line of these appliances from the factories will increase steadily in coming months. Now is the time to plan for the future... and remember, Edmonton's new low rates make the use of electricity in the home more economical than ever before!

THE CITY OF EDMONTON
ELECTRIC LIGHT AND POWER DISTRIBUTION SYSTEM

Special Services At Metropolitan

Special services will be held in Metropolitan United Church on Sunday with Rev. William Hollingsworth, D.D., guest preacher in the morning. In the evening the speaker will be Mrs. J. W. Campbell, BA, executive secretary of the Deaconsess Order and Women Workers of the United Church of Canada. Mrs. Campbell is making a tour of the western provinces in the interests of the Deaconsess Order and will speak to groups of young people in the city.

FOLLOWING the evening service the Young People's Union, in addition to hearing Mrs. Campbell, will hold its election of officers followed by a social evening. Mr. Thompson is preaching anniversary services in Red Deer on Sunday.

TO SPEAK SUNDAY

The Rev. J. H. Menden of Wesley United Church, Calgary, will conduct the Church of the Air service on Sunday, Oct. 27, from 2:30 to 3 p.m. Edmonton time. The broadcast will be heard over radio station CKUA.

Two English sailors plotted the British flag at the Cape of Good Hope in 1948.

Now in charge of the Queen's Own Cameron Highlanders from June 1943 to December 1945, and was awarded the Military Cross in September, 1945, thus becoming the only Alberta chaplain with this decoration.

Church Vacation Schools Reviewed

Review of activities of the Summer Church Vacation Schools was given at a recent meeting of the Edmonton Children's Work Board. Reports revealed that vacation schools were held in 23 city churches with 736 children in attendance. The sum of \$62.54 was raised by the youngsters in connection with the "Save the Children Fund." Data has been forwarded to Toronto headquarters.

In the 30 years between the Second Great War, Australia mined more than \$100,000,000 worth of opals.

In the Sunday School service the Patterson family will be heard singing a Chinese song. A special feature of the morning service will be the offering of the morning service, the public address system given by the church for use in China, will be used for a short service outside of the Tabernacle after which there will be the official dedication to God. In the Sunday evening service the Patterson family will be heard singing a Chinese song. A special feature of the morning service will be the offering of the morning service, the public address system given by the church for use in China, will be used for a short service outside of the Tabernacle after which there will be the official dedication to God. In the Sunday evening service the Patterson family will be heard singing a Chinese song.

Christian Science

Christian Science churches on Sunday will hear a Lesson Series on the topic "Patriotism after Death." Following are significant statistics which will be read: "The statistics of the Lord are giving testimony to the heart: the commitment of the Lord is in the eye, when the last trump shall sound, but this last call of wisdom cannot come till mankind have already yielded to each law with key to the Scripture, by call in the growth of Christian Mary Baker today, p. 201"

Twenty-fifth anniversary of the Baptist church was observed at an evening service held on Thursday evening. The service was conducted by the Rev. H. Finnegan, on the following Tuesday evening the Senior Mission Circle held their monthly program with Mrs. G. Edwards of Strathcona church as guest speaker.

Old News Is No News: So Send Wedding Story Promptly

With several thousand wedding stories handled by the society staff of the city newspapers each year, the cooperation of the bride-elect is appreciated by the newspaper staff more than one may realize.

The bride-elect should consult the society department and find out the information necessary for a nice wedding write-up, then there would be no last-minute flurry or mix-up of details.

When the bride-to-be announces her engagement, which should come from her parents, she should give the date of her wedding to the newspaper for reference. If she does not want the date mentioned in the write-up, it will be withheld.

Then she should obtain a wedding announcement form from the society department of her paper, fill it out fully, making sure all names have initials, and return it to the paper a day or two before the wedding. This gives the reporters an opportunity to write it up in advance, save errors over the phone and makes it possible to run the story as soon as the wedding is over.

Details regarding trousseau, tea should be sent in a day ahead but showers may be mailed or phoned in the morning after they have occurred.

Should the bride, rushed by many details, forget to mail in the events, then she should call the society department immediately and give the required information over the phone.

The most important thing to remember is that the news should be new. It is far better to phone in an item promptly than to delay three days to write it up. Late news goes stale fast and the old adage "old news is no news" is still true.

The bride who waits until she returns from her honeymoon before sending in her wedding report, should not be surprised to find her story has been cut down and placed in a less prominent part of the page. That's because later news events have reduced her wedding's importance.

Another common error is to delay

sending in wedding information or to can order a picture and the studio pictures until after the newweds have seen the photos. If the society department knows the name of the studio where the photos were taken,

it can order a picture and the studio will make sure that the best picture is chosen.

The headline which "old news" gives newspaper staffs is exemplified by an American editor who ran the following item in his paper: "Any news three weeks old, or older, will be charged for as advertisements."

Mr. and Mrs. Gordon Elliott McCauley are shown with their attendants after their wedding which took place at St. John's Cathedral. The bride is the former

Grace Emma Grew, daughter of Mr. and Mrs. J. L. Grew of Edmonton, and the groom is the son of Mr. and Mrs. W. G. McCauley of St. John, N.B. Left to right are the best man, Mr. Rob-

ert Barlow, R.C.A.F., the groom, the bride, and the bridesmaid, Miss Jean Grew, cousin of the bride. The couple will reside in Edmonton. — Photograph by Goertz studio.

Sgt. Ldr. A. J. Alan Laing, R.A.F., arrived in Edmonton by plane from Edinburgh, Scotland for his marriage to Miss Mary Elizabeth Merryweather, which took place Monday evening at the home of Dr. and Mrs. T. H. Field. The newweds are shown above leaving in their car immediately after their ceremony. The bride is a daughter of Mrs. Margaret Merryweather, of Edmonton, and the groom is the eldest son of Mrs. C. A. Laing, of "Glenfinchy," Crawford, Scotland.—Photo by Hesth-King.

Simple, White Bridal Bouquets Set Smart Fashion Note in 1946

White roses, lilies, carnations and baby's breath are some of the fashionable bride will choose. She will shun the colored flowers, set off by the greenery, for they are "out" this year. That's the opinion of Miss Nellie Wintley, national director of the Allied Florists and Growers' Association, who said in a recent interview: "The days of a lot of greenery and shrubbery in a bridal bouquet have pretty well passed. Bouquets today are simple and chic... but above all they are white."

Mr. and Mrs. James Allison Carter are shown above after their recent wedding in St. Joseph's church. The former Miss Stefania Kaiterine Episkopi, the bride is a daughter of Mr. and Mrs. Peter Episkopi, of Edmonton, and the groom is the son of Mr. and Mrs. E. W. Carter, of Wainwright. The newweds spent their honeymoon in Banff and are now residing in Calgary.—Photograph by Housey studios.

Mr. and Mrs. Edward Roy Cutlan are shown leaving Memorial Presbyterian church after their recent wedding at Sylvan Lake. The bride, the former Miss Shirley May Watkins, is the daughter of Mr. and Mrs. Edwin C. Watkins, of Sylvan Lake, and the groom is the son of Mrs. L. L. Cutlan, also of Sylvan Lake. The newweds are making their home in Edmonton, where the groom is attending university.

Mr. Hugh K. O'Brien and his bride, the former Miss Margaret Samson, who were married in a recent ceremony in Vancouver. The bride is a daughter of Mr. and Mrs. Samson, of Vancouver, and the groom is a son of Mr. and Mrs. K. O'Brien, of Edmonton. The bridegroom, a former flight lieutenant in the R.C.A.F., served 4½ years overseas. The newweds are residing in Vancouver at 1141 G.W. st.

Mr. Reginald Donovan O'Neill and his bride, the former Miss Kathleen Elia McIntosh, are shown above after their recent wedding in Edmonton. The bride is a daughter of Mr. and Mrs. J. H. McIntosh, of Gilling Lake, and the groom is a son of Mr. and Mrs. E. D. O'Neill, of Wadena. The newweds have taken up residence in Edmonton.—Photograph by Goertz studios.

Tiny, Rural Ontario Church Has First Wedding in 70 Years

Situated in the Bay of Quinte district of Ontario is a little rural church which, in its 70 years of history, never had a wedding celebrated within its walls until last month. And this despite the fact that its name is Gretina, a name reminiscent of an entirely different record. Standing as it does where pioneer families still bear historic names—and write the coveted U.E.L. after them—it was fitting that the church should have for its first bride the great-granddaughter of William James Melton, the man who gave the site and was the carpenter as well as one of those who raised the funds for its building. The bride was Mildred Parker and her groom, William Goodman, grandson of another pioneer worker of the church. The officiating clergyman was the uncle of the bride, Rev. Harry A. Melton, of Lennox United Church, Toronto.

Shown above are Mr. and Mrs. William Arthur Mayner, who were married in St. Adam's Anglican church in Windsor, Ont. The bride, the former Miss Margaret Ray Mayner, is a daughter of Mr. and Mrs. Ernest Mayner, "Ingleswood," Edmonton. The groom is a son of Mr. J. Kähler, of Detroit, Mich. The newweds spent a honeymoon in Niagara Falls, Banff, and Jasper, and are now residing in Edmonton.

Mr. and Mrs. Norman Black are shown signing the register after their wedding which took place at Highlands United church. The bride is the former Miss Elizabeth Milne, youngest daughter of Mrs. E. Milne, of Gilling Lake, and the late Mr. G. Milne, and the groom is the son of Mr. and Mrs. Roy Black of Auburn, N.S. The newweds have taken up residence in Edmonton.—Picture by Foto-Craft.

Mr. Gordon Taylor Lavender and his bride, the former Miss Vivian Elizabeth Taylor, are shown leaving Central United church after their wedding. The bride is the daughter of Mr. and Mrs. Roy C. Taylor, of Edmonton, and the groom is the son of Mr. and Mrs. Everett J. Lavender, of Smith Falls, Ont. The newweds are making their home in Edmonton.—Picture by Foto-Craft.

Mr. Alan T. Carlson, and his bride, the former Miss Anne Vivian Ballantyne, are shown above leaving Christ Church of England after their wedding. The bride is the second daughter of Mr. and Mrs. John Ballantyne, of Edmonton, and the groom, holder of the R.A.F., is a son of the late Mr. and Mrs. Theo Carlson, also of Edmonton. The groom was a former flight lieutenant in the R.A.F. On return from a wedding trip to Vancouver and Victoria, the newweds will reside in Winnipeg.—Photograph by Foto-Craft.

Larger Population Needed, Say Majority of Canadians

By Canadian Institute of Public Opinion

TORONTO.—Leaders who urge that Canada adopt measures to increase our population can count on emphatic popular support, for the majority of adult Canadians of all classes say this country needs more people — particularly on the farm.

Opinion as to the inadequacy of our population has crystallized solidly in all areas, the institute finds in its latest survey of attitudes of an accurate cross-section of all voters.

In February, 1945, and again today, the Gallup poll asked:

"Would you like to see Canada have a much larger population, or do you think the present population is just about right?"

Although the earlier poll was conducted at the height of the critical wartime manpower shortage, the opinion today on population need is virtually unchanged:

Need larger pop. 63%	63%
About right now 37%	37%
Qualified 5%	5%
Undecided 9%	8%

The replies classified as "qualified" were those in favor of a larger population but on condition that it be "properly distributed," that immigration be "selective," and other similar provisions.

Veterans of the First and Second

Great Wars are more unanimous in favor of a larger population than the non-service voters:

2nd War Vets Citizens	68%
Later 1905 75%	58%
About right 18%	31%
Qualified 3%	3%
Undecided 2%	6%

Opinion as to the type of additional population required was surveyed in the latest poll by the further question asked of the 63% who favor a larger population:

"When you say Canada needs a larger population, do you think we are more in need of farm workers or factory workers?"

The response indicated a national breakdown as follows:

Type needed:	28%
Farm workers 45%	45%
Both 29%	29%
Undecided 2%	2%
63%	63%

SEEK WAGE INCREASES

WINNIPEG, (CP) — Employees of the Dominion Tea and Chemical companies at Truro, Man., are asking new wage increases of five cents-an-hour on the maximum rate, it was reported Friday by the One Big Union. The request also would eliminate the sliding wage scale now in effect at the plant.

Demands Are Heavy In Mineral Output

OTTAWA, (CP) — Heavy demands for building materials has resulted in an increase in output of leading mineral products during the first eight months of 1946, the Dominion bureau of statistics reported.

Crude oil production during the eight-month period stood at 7,072,113 barrels compared with 5,276,007 in the same period of last year; clay products \$7,491,387 (\$4,936,481 last year); gypsum \$4,428 tons (\$2,961,021); lime 552,363 tons (\$37,525); fertilizer 25,154 tons (\$1,832) and asbestos 349,656 tons (\$10,283).

Keep Mail Rates For Men Overseas

By Richard Sarnhan

OTTAWA. — Special postal privileges to Canadian servicemen still overseas will be continued until the end of the year.

It had been intended to end these privileges Oct. 31 but at the request of the national defense department the cut-off date has been moved back two months.

There are still 2,000 Canadian army men in the United Kingdom or on the continent. Most of them will be home by the end of November, but not all.

The privileges include free postage for troops on the continent and in the United Kingdom and special reduced rates on mail and parcels sent from Canada to men overseas.

Lt.-Gen. Walter Bedell Smith, American ambassador to Moscow, is shown as he called at the White House for conference with President Truman. Smith, who attended the Paris peace conference, is to spend some 10 days there before returning to his post. It is understood that he is there to consult with the state department on the Soviet request to close certain U.S. consulates.

Members of the choir of Canterbury Cathedral, in England, have been wearing overalls under their choicocks because the billed habit apparatus has not yet been repaired.

Would Have Court Settle Labor Rows

CALGARY, (CP) — Solution of Canada's labor dispute lies in application of the rule of law, in the opinion of A. L. Smith, M.P., who addressed a luncheon meeting of the Calgary Board of Trade Friday.

Mr. Smith said he was not in favor of compulsory arbitration. For one thing it would not be enforced by 1,500, he said. But after a board of conciliation has dealt with a dispute, either party which was dissatisfied with its decision should have the right to go to a judge of the supreme court and accept its decision as final.

Such a method would put the case before the bar of public opinion and no strike or lockout could continue long without public support, he declared.

Two Japs Receive Death Sentences

SINGAPORE, (AP) — Lt.-Gen. Kuniaki Harada, wartime commander-in-chief of Japanese forces in Java, and his chief staff intelligence officer, Lt.-Col. Kanzo Maeda, Friday were sentenced by an Australian war crimes court to be hanged. They were charged with unlawfully ordering the execution of three Australian airmen forced down during wartime military operations off Macassar.

Commit Soldier For Murder Trial

MOOSE JAW, (CP) — Following preliminary hearing in city police court here Friday, Richard Donald Stone, a former army private, was committed to stand trial on a charge of murdering a veteran of the First Great War, Wilfred (Blackie) Burton, 67, Burton was found lying in a rooming house last week.

Citizens Give Aid To Stranded Trams

VANCOUVER, (CP) — British merchant seamen, who arrived here without pocket money and without money Friday went on a shopping tour.

On arrival here they found they could not exchange pound notes for Canadian funds. Their pocket money, supplied at Halifax, had been spent in the cross-Canada train journey.

Shipping agents came to their aid, arranging pay advances, while scores of citizens volunteered help, including offers of tobacco and cigarette tins.

The party of 107 seamen is en route to Seattle and San Francisco to take over four vessels purchased by a British line.

HALLOWEEN

THE maple leaves were turning to brilliant reds, yellows and orange. The birch tree leaves had taken on their many shades of yellow and the service berry leaves were blotched with deep red and green. Chipmunks, gray squirrels and the red squirrels were scurrying about in search of walnut, hickory and beech nuts. Now and then a formation of geese or ducks flew high overhead on their way south.

"It won't be long now until Winter will be here," remarked the Old Soldier with a wooden leg as he washed his hands in a hazelnut shell of water on the Teenie Weenie back porch.

"We ought to be getting ready for our Halloween party," put in the Lady of Fashion, who stood in the kitchen door.

"We'd better have the party in the town hall this year," said the General. "It's getting rather coolish now and it will be nice and warm in the hall."

"That will be fine!" exclaimed the Lady of Fashion. "We can decorate the hall with Autumn leaves. They are beautiful this fall."

The Lady of Fashion generally manages the Teenie Weenie parties, and she set to work right after breakfast. She put most of the Teenie Weenies to work, too. The Cook made two and a half thimbles of doughnuts and some black walnut cookies. Then he selected a huge frog ham for baking. Meantime, the Lady of Fashion and some of the other Teenie Weenie women scrubbed the old felt hat which the little people used for a town hall.

The Cowboy, the Dunce, the Chinaman and the

Sailor set off one morning with Skippy, the chipmunk, to help them carry back the leaves.

The prettiest leaves grew near the tops of the big trees and the little men climbed up to the limbs high above the ground. It was a dangerous undertaking but Teenie Weenies can climb about as well as chipmunks and they soon chopped off a good supply of bright leaves, which they let fall to the ground. The Cowboy packed the leaves into a roll which he then lashed onto Skippy's back.

When the leaves were hung up inside the old hat they made the place very pretty. Mice, chipmunks, squirrels and rabbits from all about the neighborhood came to peer through the tiny windows at the decorations. Even a gruff old mole came and grunted his approval.

"We may have better parties than this one," said the Lady of Fashion, as she put the finishing touches to the decorations, "but we shall never have a prettier one."
